2. Reason for the Change

Amano places great importance on our policy for dividend payments to our shareholders. Fundamental to this is our policy for the return of profit to shareholders, together with appropriate results-based distributions of profits. Amano aims to maintain a payout ratio of at least 40% on a consolidated basis, a ratio of dividend to net assets of at least 2.5%, and total return ratio at least 55%.

In accordance with this policy and taking into consideration the current-year operation results, it was decided to pay a year-end dividend of JPY50.00 as originally planned.

In addition, we plan to payout a commemorative dividend of JPY20.00 per share to commemorate the AMANO's 90th anniversary in November 2021. Therefore, combined with the interim dividend already paid, the annual dividend will be JPY95.00, which is an increase of JPY30.00 compared to previous fiscal year.
