Notice: The effects of the Tohoku Region Pacific Ocean Earthquake

We would like to extend our sincere condolences to all those who fell victim to and to those who are now suffering from losses caused by the devastating Tohoku Region Pacific Ocean Earthquake.

The effects of the earthquake to Amano Corporation, as we know presently, is as follows:

1. The status of measures taken

Disaster countermeasure headquarters was established in the head office to confirm the disaster situation and swiftly formulate appropriate countermeasures. While placing safety as the first priority, we will endeavor to achieve the quickest possible recovery.

2. The damages incurred

At present, we have confirmed the safety of our group company employees and therefore we have not suffered serious human losses.

As for our branch offices, we have confirmed partial material damages to our Sendai and Mito offices.

Furthermore, all of our factories (Yokohama, Tsukui, Hosoe, Miyakoda) are operational without damages.

3. The effects on our business performance

The information currently available leads us to believe that the effects are limited. However, in the event of further developments, which may affect our business performance, we will promptly disclose them. .
