The status of corporate governance at Amano is as follows.

I. Basic policy on corporate governance, capital structure, corporate attributes, and other basic information

1. Basic policy

The Amano Group positions the importance of corporate ethics and the soundness of management as important management issues. By structuring the organization and establishing management systems to promote and tackle these issues, it is ensuring in the promotion of legally compliant business activities which are also in adherence to corporate ethics. Through such efforts, it is raising the effectiveness of corporate governance to realize a fair and transparent management so as to become an even more trustworthy company.

To clarify its corporate governance policy, the Group has established the Amano Group Basic Policy for Corporate Governance and the Amano Group Corporate Governance Guidelines. In the future as well, it is aiming to achieve a higher level of corporate governance to contribute to the Group's sustainable growth and medium- to long-term enhancement of corporate value.

* For more information on the aforementioned Basic Policy and Guidelines, please visit the relevant page of Amano's website, (<https://www.amano.co.jp/en/sustainability/governance/corp/>)

Amano employs the following major systems to ensure effective corporate governance.

The Board of Directors consists of 8 directors, including 3 part-time Outside Directors. In addition to regular meetings, the board flexibly convenes ad hoc meetings as required to deliberate and decide upon important matters concerning management as well as to report business progress. Thus, the Company has put in place a system to facilitate swift managerial decision-making. From the viewpoint of improving corporate governance, one outside director was appointed at the 97th Annual Shareholders Meeting held on June 27, 2013, the second at the 99th Annual Shareholders Meeting held on June 26, 2015, and the third was appointed at the 103rd Annual Shareholders Meeting held on June 27, 2019. Furthermore, one female outside director was appointed at the 105th Annual Shareholders Meeting held on June 29, 2021. Besides, the Articles of Incorporation stipulate that Amano's Board of Directors shall consist of no more than 10 directors. In order to clearly define the functions and responsibilities of management and for business performance as well as to ensure swift decision-making and achieve greater management efficiency, the Company has introduced the Operating Officer System since April 2005. Of the 16 operating officers, 3 concurrently serve as Directors.

The Audit & Supervisory Board consists of four members, including two part-time outside members. In addition to attending Board of Directors meetings, full-time Audit & Supervisory Board members actively participate in the internal committee meetings and other meetings in order to monitor the execution of directors' duties and to work with the Internal Audit Unit to more effectively supervise business performance.

In order to strengthen fairness, transparency, and objectivity of procedures related to nomination and remuneration of the Board of Directors and to further enhance corporate governance, the Company has set up the Nomination and Compensation Committee, which consists of Outside Directors and Representative Directors. The Committee, a voluntary committee, discusses important matters and reports to the Board of Directors, such as appointments and dismissals of executives, their remuneration and successor training plan from the perspective of Outside Directors based on their independence, by making use of their extensive experience and technical knowledge.

In addition, the Amano Group convenes sessions of the Domestic Strategy Conference (for group companies in Japan) and the Global Strategy Conference (for group companies overseas) as required in order to grasp group companies' management statuses. In this way, it is enhancing the management monitoring capabilities to ensure that corporate ethics permeate the entire group to realize more effective corporate governance.

Reasons why the Company does not implement Corporate Governance Code principles, if any

- Male childcare rate : 50%

(2) Career training for female employees

The Company is conducting a training program "Promotion of Women's Advancement" with the aim of developing personnel who can actively design their careers and utilize their talent in their future assignments. Not only women but also men are eligible for the training program. The number of trainees who participated in the program is as follows.

FY2019=18, FY2020=15, FY2021=21, FY2022=16, FY2023=17

< The approach to ensure diversity >

The Company respects the personality and individuality of its employees and strives to ensure a sound work environment without harassment or discrimination due to ideology, beliefs, religion, nationality, race, gender, physical characteristics, personal assets, and birthplace, etc. In addition, amid the demand for diverse values and work styles associated with life events such as childbirth, childcare, and nursing care, the Company is working on efficient work styles and work-life balance according to job types under proper labor management.

< Voluntary and measurable goals and status of ensuring diversity >

The Company does not discriminate on the basis of gender, age, or nationality, which is reflected in its hiring practices and internal personnel evaluations, and therefore evaluations are based on ability, insight, and personality, and not on gender. Domestic and overseas group companies have appointed foreign nationals and females as executives. The Company intends to continue this policy to appoint female personnel based on their abilities. Additionally, in our 9th Medium-Term Business Plan, the Amano Group has set the following targets for maximizing the value of human capital.

Targets for Diversity (as of March, 2026)

- Female manager ratio : 5%
- Manager ratio among female employees : 10%
- Male childcare rate : 50%

The Company's policies on Human Resources Development and Improving Internal Environment are posted on Amano's website and the Sustainability Report.

(<https://www.amano.co.jp/en/sustainability/>)

The information and materials on proposed agenda and resolutions are provided to all directors in advance, and sufficient time is allocated for them to examine the contents.

(3) Agenda of the Board of Directors, etc.

Regarding the contents of agenda and resolutions, the Company Group's important information (both quantitative and qualitative) is shared with all directors on a monthly basis, and other important matters are discussed as agenda items at meetings of the Board of Directors as necessary before making decisions.

(4) Structure to support the Board of Directors

Opportunities for seeking the provision of information are appropriately secured to directors and Audit & Supervisory Board members, and coordination between the Internal Audit Unit and directors and Audit & Supervisory Board members is secured. In addition, Corporate Planning personnel, etc., provide support as required to furnish necessary information to outside officers in a timely manner.

In respect of training for officers, opportunities are given to fully understand the roles and responsibilities that executives are expected to fulfill, through measures including holding periodic seminars for executives.

(5) Further enhancement of effectiveness

During the analysis and evaluation of the Board of Directors Meetings, the Directors suggested that Medium to Long term management issues including sustainability initiatives should be discussed and the agenda should be further enhanced. Based on such opinions and discussions, the Company will strive to further improve the effectiveness of the Board of Directors Meetings by ensuring that all relevant issues are thoroughly recognized and shared among the members.

Supplementary Principle 4-14-2

Please refer to the Amano Group Corporate Governance Guidelines.

Principle 5-1

Please refer to the Amano Group Corporate Governance Guidelines.

Conducting Dialogue with Shareholders

The Company's dialogue with shareholders is as follows.

(1) Respondents in charge of dialogue with shareholders

In principle, the director in charge of investor relations and the staff of the Corporate Planning Unit respond to matters regarding dialogue with shareholders, and work together with the related departments as necessary.

(2) The track record and details of dialogues with shareholders

In addition to the Annual Shareholders Meeting, the Company holds financial results briefings for analysts and institutional investors twice a year, at which the Representative Director explains the details of financial results.

In the fiscal year 2023, the Company held 137 meetings with both domestic and overseas institutional investors. The main topics of dialogue at these meetings covered a wide range of topics, including an overview of financial results, business trends, competitive business environment, growth strategy activities, shareholder returns, and ESG initiatives.

Other IR events include overseas IR activities in which the Representative Directors visit various countries to conduct interviews with investors, etc.

(3) Feedback obtained from shareholders

Opinions and other information obtained through the dialogue are reported to the Representative Director, and used as reference for the Company's consideration of corporate governance, formulation of Medium-Term Business Plans, returns to shareholders, and enhancement of disclosures, etc.

In order to maintain the fairness of information, the Company conducts dialogue in accordance with the Amano Group Corporate Governance Guidelines. In principle, the Company provides timely disclosures in Japanese and English simultaneously in accordance with the listing rules stipulated by the Tokyo Stock Exchange on Amano's website. Other disclosures are also made in the same way.

Incentives

Implementation of measures related to granting incentives to directors

Introduction of a performance-linked remuneration system and more

Supplementary explanation of the applicable item

The Company, which abolished the executive retirement allowance system at the conclusion of the 92nd Annual Shareholders Meeting held on June 27, 2008, has introduced share price-linked remuneration to link executive remuneration to shareholder value more closely. It pays a certain percentage of monthly remuneration by acquiring Company shares and contributing such shares to the executive stock ownership association. All shares thus acquired by executives must be held throughout their terms of office.

In addition, pursuant to a resolution at the 100th Annual Shareholders Meeting, held on June 29, 2016, the Company has implemented a mechanism called BIP (Board Incentive Plan) Trust as a Performance-Based Stock Remuneration Plan for Executives, which is linked with the period of the 7th Medium-Term Business Plan, launched in April 2017. With the launch of the 9th Medium-Term Business Plan in April 2023, this BIP trust period has been extended for the same period accordingly after partial revision.

Under this system, a certain number of merit points scaled to the executive's rank, will be awarded depending on the target achievement ratio for consolidated operating profit, consolidated net sales, and ROE. Thus, the system is designed to award incentives to directors and other executives so that they work to achieve these indicators.

Please refer to the securities report for details on performance-linked compensation.

Support for Outside Directors (Outside Audit & Supervisory Board members)

The Company does not assign dedicated personnel to Outside Directors and Outside Audit & Supervisory Board members; however, to provide relevant information to these executives appropriately in a timely manner, Corporate Planning personnel support Outside Directors, the Internal Audit Unit and Accounting personnel support Outside Audit & Supervisory Board members, and the Corporate Administration Division Secretarial Office supports them in other general matters.

2. Matters related to functions such as business performance, auditing, and supervision, nominations, and decisions on remuneration (Overview of current corporate governance systems)

To enhance the Board of Directors' effectiveness, the Company limits the number of directors to 10 in its Articles of Incorporation. It has carried out reforms such as establishing systems that enable it to deliberate and resolve important management issues as well as to make swift decisions on business strategy, medium- to long-term management policy, and so on for the group. As part of these efforts, the Company has introduced the Operating Officer System since April 2005; under this system, it aims to achieve swifter decision-making and greater managerial efficiency through substantial delegation of authority.

In order to strengthen fairness, transparency, and objectivity of procedures related to nomination and remuneration of the Board of Directors and to further enhance corporate governance, the Company has set up the Nomination and Compensation Committee, which consists of Outside Directors and Representative Directors. The Committee, a voluntary committee, discusses important matters and report to the Board of Directors, such as appointments and dismissals of executives, their remuneration and successor training plan from the perspective of Outside Directors based on their independence, by making use of their extensive experience and technical knowledge.

The Company has also set up various internal committees, which together constitute the foundation of its CSR (Corporate Social Responsibility) initiatives and risk management systems; examples include the Compliance Committee and the Risk Management Committee. It strives to make their operation more effective. The details of their activities are reported to Representative Directors as required and to the Board of Directors when necessary. For more information on these committees, please refer to the "Corporate Governance System: conceptual diagram."

○ Activities of the Board of Directors

In the fiscal year 2023, the Board of Directors met eight times, and the attendance of all directors was 100% (including 100% for Outside Directors).

○ Matters related to Outside Directors

The Company has appointed 3 Outside Directors.

Outside Directors possess specialized knowledge and experience as a lawyer, a former employee of the Ministry of Finance, and the management in the listed company working as a Diversity & Inclusion officer. In addition, they have gained extensive expertise through their careers and as such, the Company believes that they can aid the management by providing fair, just, and appropriate guidance and advice. The Company has designated them as independent executives who are unlikely to have conflicts of interest with ordinary shareholders.

○ Initiatives to strengthen the functions of the Audit & Supervisory Board members

The Company appoints Outside Audit & Supervisory Board members in order to utilize their specialize knowledge, experience, and abilities to enhance the Company's audit system. Among these members, the Company designates all of them as independent officers who are unlikely to have conflicts of interest with ordinary shareholders. The Company expects all members to express their fair opinions from an independent point of view.

In addition, the Company has established a framework whereby the staff of the Internal Audit Unit and the Corporate Planning Unit support the audits conducted by the Audit & Supervisory Board.

○ Audits

• Audit & Supervisory Board (four members, including two part-time outside members)

Audits & Supervisory Board audits are conducted by full-time Audit & Supervisory Board members in accordance with the audit policies and plans, and the division of duties determined by the Audits & Supervisory Board. In addition to attending Board of Directors' meetings, the members actively participate in various internal meetings to monitor the directors' duty execution. The members may also request reports from group companies if deemed necessary, to investigate the status of business operations and asset conditions. In addition, as an observer, the members may participate in various committee meetings, which are the core bodies of internal control, to constantly share information and hence be in a position to monitor the status of the Group's internal control mechanism.

The Outside Audit & Supervisory Board members participate in determining audit policies and plans, division of duties, etc. at the Audit & Supervisory Board meetings. They provide fair and appropriate guidance and advice, and attend Board of Director meetings to monitor the director's duty execution.

The Company has established a framework whereby the full-time and Outside Audit & Supervisory Board members and the Outside Audits along with Outside Directors, the Internal Audit Unit, and the accounting auditor can collaborate and share information such as audit status reports.

- Internal Audit Unit

Regarding internal audits, the Internal Audit Unit audits the status of business execution of the Company and its group companies. In addition to conducting audits based on their annual audit plan, which is formulated at the beginning of the year, the Unit will consult with the Audit & Supervisory Board members and conduct internal audits on specific topics requested by them. The audit results are reported to Representative Directors and if deemed necessary, to the Board of Directors and the Audit & Supervisory Board.

The Internal Audit Unit has established a monthly forum for sharing information with Representative Directors and full-time Audit & Supervisory Board members. In addition, they will convene twice-a-year meetings with Outside Audits and Outside Audit & Supervisory Board members to share the status of internal audits.

- Accounting auditor

In accordance with the companies Act and the Financial Instruments and Exchange Act, Ernst & Young ShinNihon LLC conducts accounting audits of the Company and its group companies. Audit results are reported to the Audit & Supervisory Board, the Internal Audit Unit, and the Accounting Division at any time.

The certified public accountants who conducted audits for the fiscal year 2023 and their lengths of service are as follows.

Ryo KAYAMA, designated limited liability partner and engagement partner (length of continuous service as an auditor: 3 years)

Minoru OTA, designated limited liability partner and engagement partner (length of continuous service as an auditor: 4 year)

3. Reason for selecting the current corporate governance system

In establishing its corporate governance system, the Company referred to the "Appointment of Outside Directors and Cooperation with the Board of Corporate Auditors," one of the corporate governance models presented in the Report of the Study Group on the Internationalization of the Japanese Financial and Capital Markets published by the Financial Systems Council's Committee on Financial Systems on June 17, 2009. Outside Directors and Outside Audit & Supervisory Board members express their opinions about putting internal controls in place and making all-out efforts to operate them in the Company's departments and its group companies from an external, independent point of view.

Formulation of a policy for providing information to stakeholders	The management policy of the Group clearly states that returning profits to stakeholders is one of its management guidelines and that it aims to continue to do so by achieving sustained business growth.

IV. Matters related to internal control systems, etc.

1. Basic policy for internal control systems and its establishment

The Company has put in place systems to ensure appropriate operation of the corporate group consisting of the Company and its subsidiaries by making business operations effective and efficient, compiling reliable financial reports, and complying with laws and ordinances (hereafter, "internal controls"). The following describes the details of specific internal controls.

- (1) System to ensure that directors and employees of the Company and its subsidiaries comply with laws and ordinances and the Articles of Incorporation when performing their duties

- 1) The Company has established regulations for the Group's compliance system, including corporate ethical standards, and provided a code of conduct to ensure that all directors, operating officers, managers, and employees (hereafter, "executives and employees") observe laws and ordinances, the Articles of Incorporation, and social codes when they act.

In addition, for ensuring thorough compliance, the Company has set up the Compliance Committee, which oversees efforts toward compliance in a manner that covers the Group horizontally, thereby discussing important issues and conducting training for executives regarding compliance.

The Internal Audit Unit works with the Compliance Committee to audit the overall status of compliance within the Group. These activities are reported to the Board of Directors and the Audit & Supervisory Board periodically.

- 2) The Company has established a system by which if executives and employees of the Company or its subsidiaries discover something or someone that is suspected to violate a law or ordinance, they must immediately report such discovery to the Compliance Committee. This system includes a compliance hotline, which allows employees to directly report anonymously any suspected violation of laws or ordinances. Upon receiving a report of such an act, the Committee must investigate the details, discuss and decide recurrence prevention measures with the department(s) in charge, and, if such a violation is likely to be committed throughout the Company, report it to the Board of Directors and the Audit & Supervisory Board.
- 3) The Company will not maintain relationships of any kind with antisocial forces, which harm the social order and sound corporate activities, and will work closely with dedicated external organizations such as the police to adopt an undaunted attitude against such forces on a company-wide scale.

- (2) Matters related to the storage and management of information describing directors' performance of their duties

In accordance with its document management regulations, the Company records and stores information on directors' performance of their duties in print form or on electromagnetic media. The document management regulations allow directors and Audit & Supervisor Board members to view this information at any time.

- (3) Regulations and systems to manage the risk of losses at the Company and its subsidiaries

The risk management supervisor, in cooperation with the director in charge of compliance, formulates risk management regulations that systematically stipulate the details of the Group's risk management. These regulations prescribe risk categories and responsible departments, control the Group's risks in an exhaustive and comprehensive manner, and clarify risk management systems. The Internal Audit Unit conducts audits of each department's risk management status. The results of such audits are reported to the Board of Directors and the Audit & Supervisory Board.

- (4) Systems to ensure that the directors of the Company and its subsidiaries perform their duties efficiently

In order to ensure that the directors of the Company and its subsidiaries perform their duties efficiently, the Board of Directors reasonably divides the duties of directors among all directors and establishes authorities and other regulations, including check functions, and sets management goals that should be shared by all executives and employees. To achieve the goals, the directors in charge of operations devise specific measures that should be taken by each department and determine methods to efficiently implement such measures, including delegation of authorities. They also build systems by which managerial and administrative data are swiftly reported to the Board of Directors, all directors, and all managers and administrators by using IT.

The Board of Directors periodically reviews the results of these efforts, and, based on these results, encourages improvements such as eliminating or reducing factors that hinder efforts for greater efficiency, thus ensuring more precise attainment of the goals and greater operational efficiency on a group-wide scale.

- (5) Systems to ensure that the corporate group consisting of the Company and its subsidiaries operates appropriately

- 1) In order to build internal controls for its own organization and that of its subsidiaries, the Company has established a department in charge of internal controls for subsidiaries within its own organization. It has also set up structures such as a system that enables the Company and its subsidiaries to consult each other about internal controls, to share information, and to ensure that instructions and requests are conveyed efficiently.
- 2) The directors and operating officers of the Company and the presidents of its subsidiaries have powers and responsibilities to build and operate internal controls in order to ensure that all departments properly perform their business.
- 3) The Company's Internal Audit Unit conducts internal audits of the Company and its subsidiaries and reports the results to the department in charge referred to in Section 1) and the managers referred to in Section 2). The

department in charge provides guidance on internal control improvement measures and gives assistance and advice on such measures' implementation.

- 4) In accordance with the Group company management regulations, all group companies must periodically report to the Company their business performance and financial conditions as well as provide information on other important matters.
- (6) Matters regarding the independency of employees from concerned officers and the effectiveness of instructions given, in the event where Audit & Supervisory Board members request the assistance from the subject employees to conduct their duties
 - 1) The Internal Audit Unit shall conduct internal audits on specific topics requested by Audit & Supervisory Board members which are decided through consultations with full-time Audit & Supervisory Board members. The audit results shall be reported to the Audit & Supervisory Board.
 - 2) In the event where Audit & Supervisory Board members give instructions to employees in order to conduct their audit, the employee shall be sanctioned from any related instructions from any officers and/or the division manager of the Internal Audit Unit. Furthermore, the instructions from Audit & Supervisory Board members shall take precedence over the regular duties of the subject employees.
- (7) Systems for any executives and employees of the Company and directors, Audit & Supervisory Board members, operating officers, managers, and employees of its subsidiaries as well as those who receive reports therefrom to report to the Audit & Supervisory Board, and other systems for reporting to the Audit & Supervisory Board
 - 1) In addition to matters required by law, executives and employees of the Company and directors, Audit & Supervisory Board members, operating officers, managers, and employees of its subsidiaries as well as those who receive reports therefrom shall swiftly report to the Audit & Supervisory Board any matters that have serious effects on the Company or the Group, the implementation of internal controls, or reports made through the compliance hotline and their details. Reporting methods, including who reports to whom and when, shall be determined by consultation between the Board of Directors and the Audit & Supervisory Board.
 - 2) The Group prohibits any executives and employees of the Company and its subsidiaries who make reports to the Audit & Supervisory Board from being treated disadvantageously because they have made such a report.
- (8) Other systems to ensure that the Audit & Supervisory Board conducts audits effectively
 - 1) The Audit & Supervisory Board shall periodically hold meetings to exchange opinions with Representative Directors.
 - 2) If, in order to perform their duties, Audit & Supervisory Board members request the Company to make an advance payment of expenses or similar, the Company shall pay said expenses or repay liabilities unless doing so is considered to be unnecessary for the members to perform their duties.

2. Basic policy to banish antisocial forces and its implementation

In its basic policy for internal controls and corporate ethics programs, the Company clarifies its policy toward antisocial forces and makes all-out efforts to implement the policy on a group-wide scale.

The Group has no involvement with any individuals or organizations that have adverse effects on the social order and sound corporate activities. In particular, management takes the initiative in acting properly without fearing such forces. The three principles to take an undaunted attitude toward such individuals and organizations are "Do not fear," "Do not give money," and "Do not use."

Specifically, our initiatives include asking our business partners to submit a pledge that they have banished antisocial forces and, when entering into basic business and other contracts, exchanging agreements with clauses on banishing antisocial forces as required.

2. Other matters related to corporate governance systems, etc.

(1) Outline of the timely disclosure system

The Company considers it an important responsibility to disclose relevant corporate information to investors in a timely manner. Based on such an understanding and the timely disclosure regulations of the stock exchange on which it is listed, the Company strives to achieve fair and transparent management by swiftly and properly disclosing information on important decisions, financial results, and serious events that occur as well as information that is likely to affect investors' investment decisions.

All information is forwarded to the Corporate Planning and the Corporate Administration Units. Information on compliance is managed by the Compliance Committee, information on business risks is managed by the Risk Management Committee, and personal and confidential information is managed by the Information Security Management Committee in order to analyze and examine its content. Important information is controlled by information managers in an integrated manner, and every time information is received, it is forwarded to Representative Directors and disclosed by the Information Disclosure Unit after the Board of Directors' approval is obtained. The Company has established its internal system that enables it to disclose information based on appropriate decisions with information checked by the Audit & Supervisory Board, the accounting auditor, legal counsel, and the Internal Audit Unit as required prior to disclosure. Please also refer to the "Outline of the Timely Disclosure System: conceptual diagram."

In April 2014, the Company established the Timely Disclosure Rules to clarify anew the manner in which important information should be managed in supervision, responsibilities, operation as well as for timely disclosure. The Disclosure Policy was revised due to the introduction of the Fair Disclosure Rule in April 2018.

(2) Other matters

In response to the internal control report system instantiated in April 2008, the Company is actively working to establish internal controls for financial reporting under the leadership of the J-SOX Committee. Specifically, it is documenting the business processes covered by the system, evaluating the progress of establishing and operating internal controls, and providing training at all group companies.

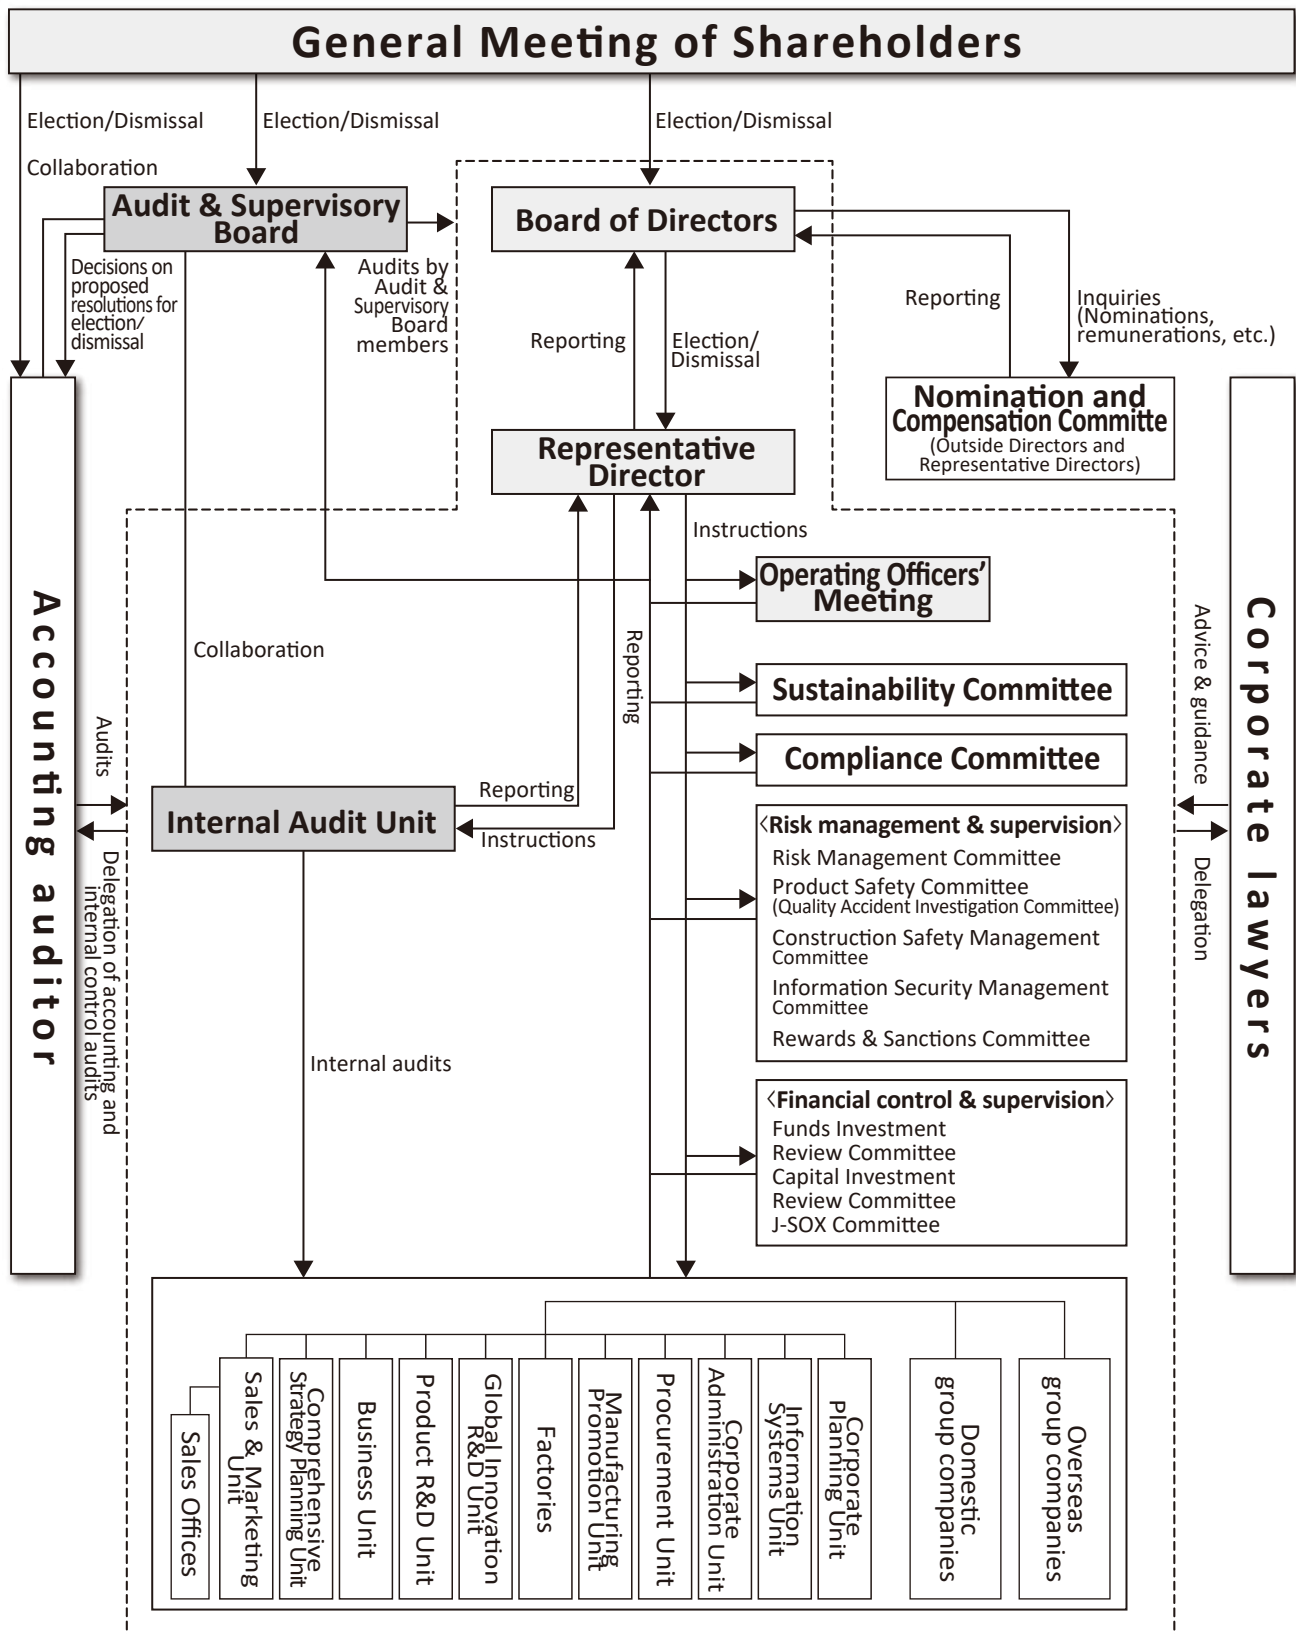

In addition, the Internal Control Unit has actively audited the Company's sales offices and production sites as well as group companies nationwide.

In April 2015, the Company established the Amano Group Basic Policy for Corporate Governance and the Amano Group Corporate Governance Guidelines in order to clarify the Group's approach to and policy for corporate governance. The Amano Group Corporate Governance Guidelines was revised in November 2018.

In addition, the Company established the Management Advisory Council in April 2015 to further strengthen the governance system, but abolished this council in October 2021 and established a new Nomination and Compensation Committee, and the Chairman was changed to an Outside Director in April 2023. Furthermore, in April 2022, it established the Sustainability Committee in order to balance the promotion of efforts to realize a sustainable society with the enhancement of corporate value.

In December 2022, the Company revised the Amano Human Rights Policy and appointed the Human Rights Policy Response Officer to oversee compliance with the policy and promote it.

In June 2023, the Company has changed the Convener and the Chairman of the Board of Directors from the Director President to the Director Chairman in order to clearly segregate the duties of management supervision and policy implementation.
